Summary

Final-year Computer Science & Engineering student (Class of 2027) and Full-Stack Developer with proven experience building scalable MERN Stack and Next.js applications. Adept at crafting RESTful APIs, responsive UIs, and performance-driven solutions, backed by strong fundamentals in Data Structures, Algorithms, DBMS, and Object-Oriented Programming.

Skills

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Framer Motion, HTML5, CSS3

Backend & Database: Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, Mongoose

Languages, Tools & Core: Java, JavaScript (ES6+), TypeScript, Git, GitHub, Docker, Kubernetes, Postman, OOP, DBMS, DSA

Experience

Oasis Infobyte

Remote

Web Development and Design Intern

Sep 2025 – Oct 2025

- Designed and developed responsive web applications, ensuring cross-browser compatibility and responsiveness.
- Implemented modern UI/UX principles to enhance user engagement and visual consistency.

GirlScript Summer of Code

Remote

Open Source Contributor

Jul 2025 – Oct 2025

- Merged 13 Pull Requests across open-source projects, focusing on full-stack and DSA.
- Collaborated globally to improve scalability, earning Explorer and Pull Shark badges.

Projects

GradeFlow

May 2026 – Jun 2026

- Developed a student academic portal with semester-wise SGPA/CGPA analytics, auto-categorizing credits across 5 domain buckets including Core Engineering using React, Recharts, and Framer Motion.
- Designed a branch-specific placement eligibility engine cross-referencing student CGPA against recruitment benchmarks of top product-based and service-based companies alongside a what-if grade predictor for strategic planning.
- Integrated real-time batch leaderboards with branch-level rankings and one-click university-branded PDF grade sheet generation via jsPDF, secured with JWT, bcrypt, and Express Rate Limiting.
-  Source Code [Live Demo](#)

WanderLodge

Jun 2025 – Aug 2025

- Architected a scalable MERN stack vacation rental marketplace with JWT-secured booking workflows, dynamic per-guest pricing, automated calendar blocking, and a host reservation control panel.
- Shipped an AI concierge chatbot, interactive Leaflet property map, wishlist system, and a verified review/rating module delivering an end-to-end traveler experience across the platform.
- Generated client-side digital tickets and invoices via jsPDF/html2canvas and built a host analytics dashboard with Recharts tracking revenue trends and booking performance.
-  Source Code [Live Demo](#)

Education

Centurion University of Technology and Management

2023 - 27

B.Tech in Computer Science and Engineering

CGPA: 9.19

NIST Higher Secondary School

2021 - 23

Higher Secondary Education (PCM & IT)

Marks: 86.3%

Achievements

Certifications: Angular Web Developer Certification (Infosys Springboard), JavaScript (Basic) Skill Certification (HackerRank), Postman API Student Expert, Manage Kubernetes in Google Cloud.

Hackathons: Shortlisted among the top teams in the Gen AI Exchange Hackathon 2025 (Google Cloud x Hack2Skill).
